

KERN-LIEBERS

TEXTILE

Fine Gauge Sinkers

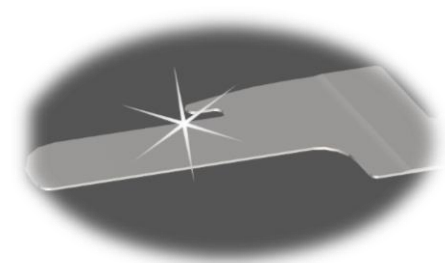

KERN-LIEBERS TEXTILE offers a comprehensive portfolio of fine gauge sinkers for the production of fabrics up to 60 GG and even beyond.

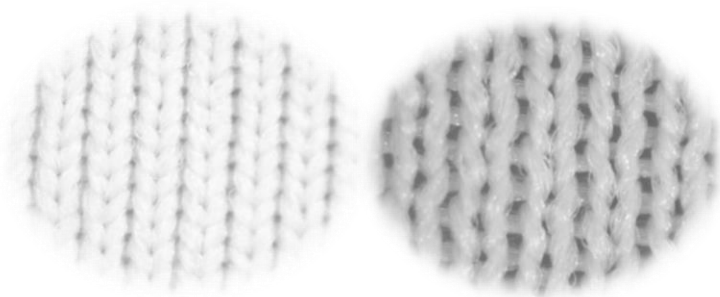

Fine gauge loop structures produced with very delicate yarns, need first-rate sinker polishing.

KERN-LIEBERS TEXTILE, with our world-wide leading polishing technology and experience, guarantees a perfect surface quality which protects the yarn against capillary breakage.

Only with the high end product quality of KERN-LIEBERS TEXTILE, the increasing demand for sophisticated fine gauge fabrics can meet the ambitious requirements of the world textile market.

Fabric quality

Benefits:

- Easy processing of elastic yarn and multifilament's yarn
- No yarn breakage because of perfect surface polishing
- Perfect loop structure for finest gauges
- Optimum rounded edges and therefore easier yarn processing
